```
#include <iostream>

using namespace std;
int main(){

    int num;

    cout<<"Enter a number \n";
    cin>>num;

    if(num%2==0){
        cout<<"Entered number is even";
    } else {
        cout<<"Entered number is odd";
    }

    return 0;
}
```
